After the nomination for Governor, Col. J. C. Carpenter, J. D. Snoddy, and Ben. F. Simpson, left the Convention, as had been preconcerted in such a contingency, expecting a general stampede of nearly half the Delegates; but they were awfully mistaken, as but few followed them. It will take a few votes from Osborn, but not enough to seriously injure him. We learn that editors of some six or eight newspapers, mostly patent outsides, also met and agreed to bolt the nomination for Governor. We shall give full particulars in our next.

The full State and Congressional ticket will appear in next week's Chief.

When we came out in favor of Judge Price why did you commence abusing us for it, and referring to what we had said about him and other men, in a bitter local quarrel several years ago? Did you do it to open old sores, and prevent their healing ?

Why have you taken so much pains to quote what we have said in opposition to Price in the past ? Did you think it would injure us; or did you do it to neutralize and destroy any influence

that we were likely to exert in favor of Price? What was your object in opposing peace between the friends and apponents of Price of two years ago, when the object of that peace was to aid Price? Would you rather see him defeated, than to see him succeed by the aid of ourself and friends f or do you fear that when peace prevails, your mission will be ended ?

Straightforward, plain answers are desired to the above.

"Blessed are the peace-makers, for they shall be called the children of God."

THE "REFORM" TICKET.-If we have heretofore intimated that the "Reform" State ticket was a Democratic contrivance, we beg pardon of the Democrats. If they had got up the ticket, they would at least have put able men upon it, whatever may have been their political record. We find that very many Democrats are not going to support it. Because one or two hard-shell erats of very light calibre have been put on, is no reason why they should fall in with it. The nomination of played out politicians who have been repudiated by the Republicans, is no inducement for Republicans to support the ticket. And what is there about it to commend it to the support of farmers ? Are there no men of the only men suitable for farmers to vote for are who have been repudiated by the Republican party, Democrats who have always led that par ty into blunders, and farmers who have not got the confidence of that class, met together, and put | der for Abbott to rise and explain:

stuff is sent out to the public for news, the publishers pay for it, and the public are dosed with it. Haven't the publishers enough backbone to rebel against this imposition? If D. R. Dwight Thacher wants to purify politics in his own way; or if the Kansas City Times wants to advertise one of its forthcoming blackmailing sensations, let them pay for it, and not deadhead it through by virtue of their position as agents of the associated press.

Over at St. Joe, the other day, they had a piece of tom-foolery that they called a "Tournament." A lot of young fellows rode on horseback, and jobbed wooden spears at rings supported in the air, and the fellows who "plumped centre" oftenest, got prizes, and crowned their favorite girls. In this they imagined they were imitating the Knights of old. Senator Ingalls made a speech, in which he told them they were engaged in a poble pastime; that the ancient Knights righted wrongs, succored the oppressed freed the captive, and all that, and it was noble to emulate their example. Those Tournament Knights, about as much as pis-ants do the labors of the people who built the Pyramids.

Congressional Convention. The Convention is over, and Col. Phillips has

carried the day. On temporary organization, the Phillips party succeeded by three majority, when the other candidates, seeing the inevitable, withdrew from the contest, and Phillips was nominated by acclamation. We say, saw the inevitable; for, although there was an actual majority of delegates who were chosen in opposition to Phillips, yet a portion of them went into a regular business of abystering, playing off, and selling out, which discouraged the opposition from con-tinuing the contest. The way the Convention was carried on, was a diagrace to the party. By means of money and profuse promises of office, delegates were carried for Philips, their way to the Convention was paid, and doubtless many of them got something extra. Fedral office-holders, appointed through the influence of Phillips, were there in force from all over the District, and controlled the Convention. But we suppose they would have done the same for any other man, under similar circumstances. Men who were elected to vote against Phillips, and were known to be professedly in favor of Judge Price, engaged Phillips' hand from the start. In the Western Counties, where the drouth and the grasshoppers had utterly discouraged the people they let the primaries go by default, and Phillips' hirelings and strikers went in and controlled the choice of delegates. Another thing that crippled him The serial stories, "Fast Friends," by J. T. Trowhadly, was the result in Atchison County. He had assurances of the entire vote of that County, and would have got it, on a final vote; but Mr. Guthrie came on the track, and those delegates were instructed to vote for him, and use their influence to secure his nomination. It took so many votes from Price's positive strength, and had a very damaging effect upon the weak-kneed and vacillating, who were ready to unite with the strong crowd. We have no doubt that this was just what was intended. But Judge Price comes out without a blemish, and to-day could excite more enthusiasm in any part of the District, than the man who received the nomina

While decidedly objecting to the means em ployed to secure the nomination of Phillips, we have but little objection to his course in Cougress, and none to his record as a Republican We shall, of course, support his election, and trust that the scenes at the Convention have not disgusted a sufficient number of Republicans to endanger his success.

"How can we bury the past! The name of Nelson Abbott on the Cusaick ticket for Secretary of this great State, brings vividly to our memory the fact that the bleed of as brave and loyal a man as ever breathed, is still dripping from his rebel skirts. While publishing a newspaper in a loyal community, he taught his party to believe that the war for the preservation of the Usion was an unholy, iniquitous and unrighteous crusade on the part of Lincoln and his hirelings, to crush out the people of the South, to resist which was his highest and noblest privilege. He was an active and persistent emissary of the Southern Confederacy and enemy of the Usion. He encouraged revenue and taught his followers resistance to the draft, until his toachings insaily culminated in the murder of Wm. Randelph, Deputy Provost Marshal for the Northern District of fillmons, by brutal and ignorant draft resisters. He has never taken anything back. Trme, he took the outh of allegiance to the Union, but he was compelled to do that by an outraged people, and no one who knew him expected him to keep it. The nomination of Nelson Abbott on any ticket is an insult to every soldier and patries in the State. Much sooner would we vote for a man, who, believing their cause to be his cause, shouldered his masket and fought against the government, rather than this man whose whole business was to make war on the helpless women and children, old man and criples, who were left at home. We are willing to bury the past, but how can we when such men are thrust in our face?

A New Demngogue Scheme.

A scheme is now on foot, and being strongly pressed, to have the Governor call an extra sion of the Legislature, for the purpose of adopting measures of relief for the Western Counties of the State. A resolution to this effeet was passed at the Leavenworth Congressional Convention; and there is a strong probability that, through political pressure and pan-dering, the thing will be accomplished before the

The extra session would of itself entail an ex sense of many thousands of dollars; and once sembled, there is no telling what extravagances they would commit, with an eye to political effect. It is a question whether the Legislature would have the right to tax the people of the whole State for the support of one section. At the present time, no measures have been taken to estimate the amount of aid that will be required to carry the Western Counties through the Winter. They are not yet starving, and there is plenty of time to ascertain their actual condition. When that is done, we have no doubt that voluntary aid could be raised in the Eastern in the meanest kind of shystering, and played to part of the State to relieve all their necessities, at least until the regular session of the Legistature, when, if there is still distress, action can then be taken.

Receipts for Making Dr. Sage's Ca-tarrh Remedy and Dr. Pierce's Golden Medical Discovery. Something over a year since, a periodical issued in Berlin, Prassia, and laying claims to a scientific character, published what was represented as being the formula or receipts for making Dr. Sago's Catarri Remedy and Dr. Pieroe's Golden Medical Discovery. The people were left to infer that these had been deducted from a careful chemical analysis of the medicines, which are rapidly growing in popular favor in that as well as in this and most other civilized countries. The receipts were gridently invented by those jealous of the reputation and large sale which these medicines are rapidly acquiring, and who were pecuniarily interested in endeavoring to check their sale. So ridicalously preposterous are those receipts that medicines compounded after them could never have gained any reputation or sale in any country, for they would be so caustic, poisonous, immediately and positively injurious, We hear of a most revolting crime, perpetrated at the trading post in Linn County Kansas. Hardin Keeny, an old man, seventy years of age, was sleeping all unconcious of danger, beside an open window in his house, when it was approached by a man supposed to be one J.C. Goss, formerly of La Cygne, who deliberately shot him with a double-barrelled shot gun. Two shots were fired. One buck-shot took effect in the head, and one in the budy. The shots were shots were lired. One back-and the head, and one in the body. The shots were directed above Mrs. Keeny, who was lying bedde he husband. The shots were evidently insale in any country, for they would be so caustic, poisonous, immediately and positively injurious, as in every case to be promptly condemned by the people on the first trial as miserable, dangerous and wicked humbngs. Whereas, it is a well known fact that all my medicines cujoy the reputation, honestly carned, of being not only efficacious, but perfectly mild, pleasant and harmless in effect. Notwithstanding, however, that the bogus receipts were so ridiculously preposterous as scarcely to have been believed by the most unscientific, thoughtless and unsuspecting terous as scarcely to have been believed by the most unscientific, thoughtless and unsuspecting people, yet strange and incredible as itmay seem a paper of high scientific pretensions, published in this country, copied the fictitious receipts from the German paper. This they evidently did without a moment's reflection, for that much consideration, given by an intelligent mind, to the receipts and the properties and effects of the mixtures that would result from such a compounding of well-known caustic and poisonous chemicals and drags, would have condemned them as begus fabrications, and the pretentious publishers of the paper that originally inserted them, as either knaves or fools. On my attention being called to the matter, in order that some thoughtless and over-credulous people might not be deceived and misted by seeing such an amouncement in a paper laying claims to a scientific character, as well as to clear myself of the imputation of being guilty of perpetrating a tific character, as well as to clear myself of the imputation of being guilty of perpetrating a wicked fraud upon the people, as such announcement, if ancontradicted, would imply, I, as proprietor and manufacturer of the aforesaid celebrated medicines, went before a magistrate and made oath to the fact that the said receipts were utterly false. My affidavit was sent to the publishers of the paper into which the bogus receipts had been copied, and in a subsequent issue an editorial notice was given of my denial. But, notwithstanding such correction and denial, made under oath, certain individuals, who lounge around and infest our large cities, gaining a livelihood by perpetrating all kinds of catch-penny frauds upon the credulous, were thereby given the hint that, as my medicines were universally pepular, by advertising for sale logus receipts for making them, they could get lots of ignorant people to bite at their bait. It is copied from the papers alluded to, and is as follows: "For Dr. Sage's Catarrh Remedy, take eight grains Carbolic Acid, seven grains of Camphon, and two and a half grains of common salt, the whole to be colored with a little Prussian blue." This makes a powerful caustic mixture, as unlike Dr. Sage's Catarrh Remedy (which is perfectly unirritating, mild, soothing and pleasant) as light is from darkness. As "a burnt child dreads the fire," if any have been so foolish as to have burned their noses sere with this caustic compound, thinking that they were using the same as Dr. Sage's celebrated Catarrh Remedy, they will, it is to be hoped, profit by the lesson thereby tanght them, and not be so ready next time to bite at every catch-penny advertising dodgethat. in-law to Nevens, which rumor attributed to Mears. The posties met last Friday, Nevens ac-cused Mears of circulating the seandal, Mears denied it, hot words followed, and Mears picked of which Mears turned to run, when Neveus fired and shot his opponent through the calf of the leg. Neveus immediately came to town and re-ported the facts to Judge Clark, claiming to have acted in self-defence. The judge told him that there was no complaint against, him and he could go home and report to him again Saturday mor-ning. He did so and was again dismissed, so up swindlers may offer them. For Dr. Pierce's Gold-en Medical Discovery, the bogus receipt reads: "Take four-drachmspurified Honey, fifteen grains extract poisonous Lettuce, thirty grains of Opi-um, three and a half ounces dilute Spirits, three ounces water. Mix." Of this ridiculous bogus formula I will say, as I did under oath, not one of the medicinal or noisonous ingredients therein given formula I will say, as I did under oath, not one of the medicinal or poisonous ingredients there is given enters into the composition of my Goldan Medical Discovery! And furthermore, I will say that I defy all the chemists in the world to ascertain, by chemical analysis, the composition of any of my Family Medicines, as they cannot be analyzed so as to determine their ingredients, many of which are new in medicine and, like nearly all vegetable extracts, there are no reagents or chemical tests by which their presence can be determined. If any further proof is wanted to satisfy any person that the receipt given above is utterly false, let that person have the mixture, as given, compounded, and, not only will it be seen to be entirely unlike my Discovery in appearance, but if a further test is wanted, by taking a dose of it, Booth, beating her with a club until she was sense-less. of all the various and ridiculous bogus receipts for making my medicines that have ever been published and circulated, I would say that I have, in dealing with the people, ever been governed by the maxim that "honesty is the best policy," and that "success makes success;" for it is because some sufferer has obtained relief and cure that sufferer has sent another to me; and it is because thousands have been cured that they have recommended me and my superior remedies to other thousands of sufferers. In this way. I am constantly making living advertise-ments for myself and medicines. It is a common thing to hear people say that plenty of adver-tising will make a success out of anything, whether it has merit or not. Nothing could be farther from the truth. It is with this delusive idea actuating them that thousands have rushed headlong into advertising, only to find them-selves bankrupt in a little while. Not more than one in five hundred, who engages in advertising medicines, ever makes a financial success out of the undertaking, for the reason that a medicine, to be successful, must possess unusual and extra-ordinary merit. It is not enough that it should be a remedy of fair efficacy; it must possess superior and wonderful remedial properties, for if it does not, those who use it with the most sanguine expectations will condemn it. They will expect much of it, and it must be equal to the test, or it will prove ruinous to the proprietor. For, although a great display of advertising will, many times, create a considerable immediate demand for the article advertised, yet if the ardemand for the article advertised, yet if the article does not possess real merit, the demand will only be temporary; the frand will be detected, and the reaction will upset the proprietor and all his high expectations long before he is able to recover the amount already expended. With this view of the subject, I have felt warranted in contracting for hundreds of thousands of dollars worth of advertising in the newspapers of this and other countries, feeling perfectly assured that the merits of my remedies were so great as to insure a financial success out of anch a lold undertaking. And in this I have not been disappointed, for my sales have increased steadily year after year, until they will this year largely exceed half a million dollars worth of my medicines. This grand success, I am certain, could never have been attained had the medicines not possessed superior and wonderful merits.

The Toledo Blade, in an editorial article, has truly said, alluding to my business, that "great

truly said, alluding to my business, that "great success is never achieved without merit. An ar-ticle that holds the field year after year, and the

sales of which increase regularly and rapidly, must have absolute merit."

We know him to be a regularly educated physician, whose diploma hangs on the wall of his office, and we know that he has associated with him several of the most eminent practitioners of the country. We know that parties consult him, by mail and in person, from all the States in the Union every day, and that they are fairly and honestly dealt with. We know that his medicines are sold in enormous quantities in every State in the Union, and very largely in many foreign countries.

A serious accident occurred to the wife of Henry Coy, of Grasshopper, Falls Tuesday. She started from town in a buggy with her child and a Miss George, and on reaching the bridge the horse backed off, pitching the buggy over the abuntment wall. Miss George jumped out and escaped with a few bruises, Mrs. Coy fell over with the buggy, and sustained serious injuries, while her babe escaped almost unhurt. The horse was killed by the fall. A recent trip west through Cloud, Dickinson Mitchell and Lincoln counties discloses the fact that the drouth is much more seriously felt there than father east. The corn is almost a total failure. The hot winds of last week parched it completely, and the destruction was being completed by countless throngs of grasshopers. Wheat is, however, a fall crop with an immense acre-

Jos. Williams, the postmaster at Fontana, was accosted by a stranger one day last week, who with cocked pistol demanded his money. Wil-liams made a show of going to his safe to get his wealth, but his hands fell on his revolver, which was in the safe, and getting the drop on the fellow shot him dead. The Commercial is glad to learn that the Con-

gressional delegation have ceased their efforts to remove Mr. Crowell, and that he has assurances to that effect from headquarters. The family of Lewis Ellis, of Lorena, Butle

Hon. John Martin, who served in the Legisla-ture with Governor (†) Cusey, is said by the Commonwealth to have expressed himself, on Thursday, as follows: "Of the 110,000 voters in Kansas, at least 100,000 of them are superior to Cusey in every respect, and better fitted for the office of Governor."

Apples are now worth a dollar and ten cents a quart in the market—ten cents for the apples and one dollar for the doctor.

SPECIAL NOTICES.

In conclusion, I cannot offer a better refutation of the slanderous reports published concerning my medicines, than to call attention to the testimonials on file in my office, which are open to the inspection of the public. LAST CHANCE AN EASY FORTUNE!

A postponement of the Fifth Concert of the Public Li-brary of Kentucky has been so generally anticipated, and is so manifestly for the interest of all concerned, that it must meet the approvad of all. The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been add to have enabled us to have had a layer drawing on the state of July, but a short postponement was considered pre-ferable to a partial grawing.
